

The Joe Martin Foundation for Exceptional Craftsmanship p r e s e n t s :

The Internet Craftsmanship Museum

Young C. Park's incredible 1/16 scale all aluminum cutaway Corsair is just one of the models on display. Color digital photos show detail that would be hard to see even when viewing the original model, and you don't have to worry about parking or about your kids breaking anything!

About the Foundation

The Foundation was started by Joe Martin, the owner of Sherline Products, Inc., a manufacturer of precision miniature machine tools. Its purpose is to recognize and reward excellence in craftsmanship with emphasis at the small end of the size scale. Donations are tax deductible under section 501(c)(3) of the U.S. Tax Code. In addition to the on-line museum, the Foundation now awards a \$2000 prize each year to a selected craftsman and also hosts a museum and work shop in Vista, CA. Call (800) 541-0735 for details or see the web site.

The Foundation is proud to announce the entire collection of engines by the late Rudy Kouhoup has just been added to our museum.

This free on-line museum is open 24 hours a day. Drop by any time to enjoy the work of the best craftsmen in many fields including model engineering, engraving, gunsmithing and more.
